## HARTFORD COLLEGE, HARTFORD, KENTUCKY.

EASILY THE LEADING SCHOOL OF THIS SECTION OF KENTUCKY. --- SPRING TERM BEGINS JAN. 22, 1900, AND CONTINUES TWENTY WEEKS.

NOTE THE ADVANTAGES  
Healthful Location, Strong Faculty, Well-Equipped Building, The Best Methods, Superior Environments, Complete Courses, Low Expenses.

Departments--- COLLEGIATE, TEACHERS', PREPARATORY, COMMERCIAL, ELOCUTION, MUSIC AND LAW

### Collegiate Department.

By reference to the year book of 1899 and 1900 it will be observed that the courses of study are more complete and the field of research broader than they have been at any time in the history of our institution.

As advancement is made in culture and intelligence a demand for institutions of a higher class of work is necessitated. To meet these demands we have adopted such courses of study as the experience and observation of years of labor and thought have proven to be the most natural and will lead to the most complete mastery of the subjects to be pursued. It is our aim to teach students to think and act for themselves. Not only do we endeavor to arouse in students a desire to master the study which they are to pursue, but to instruct them in those general principles that lead men to a higher and nobler plane of action. Students need, as we think, instruction in their social relations and moral conduct. We endeavor to thoroughly impress upon the minds of our pupils the importance of that accuracy of knowledge, thoroughness in mental discipline, correctness of expression and morality are necessary to make life what it ought to be and can be made.

The following branches will be pursued during the spring term: Mathematics, Geometry, Surveying, Astronomy, Trigonometry, Mechanics and Calculus; Latin; Beginning Latin, Cicer; English Literature; Parnassus text, some of the recent writers, Philosophy of Literature and Draper's Intellectual Development of Europe, and General History; Sciences, Botany, Physics, Psychology and Chemistry. Besides these a number of classes will be organized to suit the demands of the pupils. In fact, we feel safe in saying that we are prepared to meet the needs of all.

### Teachers' Courses.

These courses are under the instruction of the ablest teachers in the school and the work done in them covers every branch required by the State for a County certificate, a State certificate or a State diploma. Every faithful and energetic teacher expects to at least complete these courses and obtain from the State the highest certificate of qualification possible. The constantly growing demand for well trained teachers, with broad and liberal preparation for their work has made it necessary for us to provide the very highest grade of instruction in each particular line of the teachers' work. In order to do this, each class has been placed in the hands of a teacher who has made a specialty of the work and who will spare no pains to make the work popular and effective. While we give such instruction as will best prepare for examinations we most rigidly insist upon a thorough understanding of the principles of the subject taught. Our work in Pedagogical lines is intended to develop more capable and conscientious men and women for all the departments of teaching.

Do you need work in the Teachers' course? If so, we want you. Are you deficient in Spelling, Reading, Writing, Composition, Grammar, Arithmetic, Geography, History, Civics, Physiology, Educational Psychology, Methods, Physics, Geometry, Literature or Latin? If so, this is the place for you to attend school, as teachers' classes will be sustained in all the above named branches during our spring term. Our work will be thoroughly and honestly done and will be done according to the best methods that experience and observation suggest.

### The Puerto Rico Problem.

In the possession of Puerto Rico the people of the United States are confronted with both opportunity and responsibility. It would be at variance with American citizenship if we failed to take advantage of the former; we should be recreant to every honest principle if we evaded the latter. Consequently, we may take it for granted that we shall develop the material resources of the island with characteristic energy, while endeavoring to administer the government with the wise combination of liberty and law that makes the American nation the glory of modern civilization.

There is every reason why the regard of the United States for Puerto Rico should be most considerate. True, the island came into our power by conquest from Spain; but the usually antagonistic relations of vanquished and victor have never existed between the island people and the Americans. The Puerto Ricans have

### Special Departments.

These are Music, Law, Commercial and Elocution, each of which is in charge of thoroughly competent and experienced teachers.

Miss Wolcott, of the Department of Music, received her training in the Conservatory of Chicago and is a most excellent teacher.

Judge J. S. Glenn is a lawyer of ripe scholarship and wide experience and is admirably suited to the Law Department.

J. D. Stewart, in charge of the Commercial Department, is a graduate of the Bryant & Stratton Business College, of Louisville, Ky.

Miss Roll, of the Elocution Department, is an elocutionist of rare powers and superior culture.

We guarantee the most perfect satisfaction in all these Departments.

### Standing of Hartford College.

For a number of years Hartford College has been gaining a rank with the leading Colleges and Universities that she is proud to possess.

During the past year we made arrangements with the following medical schools to allow our graduates to enter with one year's credit and without examinations: Louisville Medical College; Indiana Medical College; University of Louisville; Cincinnati Medical College; Bellevue Hospital Medical College, N. Y.; Vanderbilt University.

We also have arrangements to enter our graduates, without examinations in the schools of Liberal Arts; Washington & Lee University, DePauw University, University of Indiana, Vanderbilt University, Centre University, Central University, Ohio University and many other leading schools.

### Scholarships.

Washington & Lee University has placed in our hands a scholarship to be given to one of our graduates, who desires to pursue a higher course of work than we offer. This institution also agrees to furnish us with a list of questions and allow us to examine any one of our pupils who may desire to attend its school.

This must mean to the thinking man that Hartford College is above the ordinary educational institutions of the country. Any one desiring a course in medicine or dentistry will do well to consult us.

### Expenses.

tuition—Per term of ten weeks . . . . . \$ 8 00  
For two terms (in advance) . . . . . 15 00

BOARD—This is always by far the largest item of school expenses hence we worked hard to reduce it to a minimum and we believe we have succeeded, as we can offer students the very best board in private families at the low rates of \$2.00 per week. This includes furnished room, fuel, light, and everything except washing. So that the entire expenses here for board and tuition for twenty weeks need not exceed \$55.00

Examine our courses of study and see if you do not need something in them.

Experimental, Laboratory and Practical Field Work are some of our leading features.

If you want to learn and are willing to work for knowledge, this is the place for you; if you are seeking luxurious ease and sensual enjoyment, better go somewhere else.

onerous. He welcomes the advent of the American with sincere joy; believing that, at last, the shackles which have enslaved him are to be cast aside, and that he is to walk erect in a new and healthy atmosphere of liberty and justice.

The American people have demonstrated their ability to govern themselves; now let us prove that we can uplift the people of the islands of the sea. Through one bloody conflict we struck the shackles from four millions of our own people; and now, through the war with Spain and its well directed results, let us give freedom, good government, and higher ideals to the people who have been placed under our control. It is our noble task to lead them up to the high standard required and expected of the people of the United States. But if, after a fair trial, we find that these people do not attain the requisite and desired excellence, we shall know, at least, that our promises have been fulfilled, and that our duty has been honestly performed. In the proud consciousness of this, we can let the future determine its own problems.—"The Status of Puerto Rico," by H. G. Curtis in the December Forum.

### OFFICIAL

Call For Republican National Convention

ISSUED BY CHAIRMAN HANNA.

The following is the call for the next Republican National Convention which will name the Nation's next President:

Headquarters Republican National Committee, Washington.—To the Republican Electors of the United States: In accordance with established custom and in obedience to instructions of the National Convention of 1896, the National Republican Committee directs that a National Convention of delegates representative of the Republican party be held at the city of Philadelphia, Penn., for the purpose of nominating candidates for President and Vice President, to be voted for at the Presidential election, Tuesday, November 6, 1900, and for the transaction of such other business as may properly come before it, and that said convention shall assemble at 12 o'clock noon on Tuesday, June 19, 1900.

The Republican electors of the several States, the District of Columbia and the Territories, and all other electors, without regard to past affiliation, who believe in the principles of the Republican party and endorse its policies, are cordially invited to unite under this call in the selection of candidates for President and Vice President.

### THE DELEGATES.

Said National Convention shall consist of a number of delegates at large from each State, equal to double the number of United States Senators to which each State is entitled, and for each Representative at large in Congressional district and the District of Columbia, two delegates; from each of the Territories of Alaska, Arizona, Indian Territory, New Mexico and Oklahoma two delegates. For each delegate elected to said convention an alternate delegate shall be elected to act in case of the absence of the delegate, said alternate to be elected at

the time and in the manner of electing the delegate.

### MODE OF ELECTION.

All delegates shall be elected not less than thirty days before the meeting of the National Convention. Delegates-at-large shall be elected by popular State and Territorial conventions, of which at least thirty days' notice shall have been published in some newspaper or newspapers of general circulation in the respective States and Territories.

The Congressional district delegates shall be elected by conventions called by Congressional Committee of each district, in the manner of nominating the candidate for Representative in Congress in said district, provided, that in any Congressional district where there is no Republican Congressional Committee, the Republican State Committee shall appoint from among the Republicans resident in such district a committee for the purpose of calling a district convention to elect delegates to represent said district.

The election of delegates from the District of Columbia shall be held under the direction and supervision of an election Board, composed of Hon. John B. Cotton, Mr. W. C. Chase and Mr. L. M. Saunders.

Such board shall have authority to fix the date for such election and to arrange all details and regulations incident thereto, and shall provide for a registration of the votes as cast, such registration to include the name of each voter.

The territorial delegates shall be elected in the manner of nominating candidates for delegates in Congress, and delegates from the Indian Territory and Alaska shall be elected by popular Convention.

We recommend that the Territories or Arizona, Indian Territory, New Mexico and Oklahoma each elect six delegates and six alternate delegates, and that Alaska elect four delegates, and four alternate delegates, and the admission of such additional delegates to the convention is hereby recommended.

### CONTESTS.

All notices of contest shall be submitted in writing, accompanied by a printed statement setting forth the grounds of contest, which shall be filed with the Secretary of the National Committee twenty days prior to the meeting of the National Convention. Contest will be acted upon by the National Convention in the order of date of filing notice and statement with the Secretary.

M. A. HANNA, Chairman,  
CHARLES DICK, Secretary.

### Lost in Cornfield.

The Harrington (Kansas) Times relates an incident which took place in that locality, which will give Easterners a vivid sense of the extent of a Kansas cornfield. This is the substance of it:

"A farmer living four or five miles out of town was out in his cornfield shucking corn, and a little four-year-old boy went along for company, and the afternoon was pleasant and the little fellow wanted to 'help papa shuck corn.' Along toward night he started alone to go to the house, which was but a little way off, and that was the last seen of him till after sunrise the next morning.

"The farmer finished picking his load of corn and went to the house, supposing the boy was there, but on inquiry found that such was not the case. Search was at once instituted, and the neighbors were called upon to assist, and it wasn't long before the cornfields were alive with men and lanterns looking for the lost child. And to add to the grief of the parents and friends, the rain began to pour down in torrents between 10 and 11 o'clock—but the boy was nowhere to be found. They continued the search in hearing no response. The next morning one of the searching party came upon the wee one traveling in one of the neighbor's cornfield, a little over half a mile from home, wet through to the skin, his clothes covered with mud, indicating that he had probably tired out during the night and had lain down to take a snooze."

Independent Relations of the United States and Germany.

There has not been for twelve years such an opportune time as now for putting this country on the safe side in our commercial relations with Germany. The term of Germany's tariff schedule has nearly expired, and a commission is now preparing the scheme for the new one. Since these bills have a fixed period during which they are not subject to change, it will be readily appreciated that a considerable extent involved in the conditions that may be placed on imports from this country. As an industrial country Germany would be only too glad to make favorable arrangements with the United States; but something must be conceded for each favor expected, and a sort of reciprocity must prevail.

It is true we are a great people, but we are not independent of the rest of the world. It is true we have a country with unparalleled natural facilities for manufactures and agricultural pursuits with an ingenious people utilizing machinery in every possible direction, with a territory so vast as to include soil and climate adapted to all the forms of food demanded by man and beast and with mines to yield many sorts of ores as well as the coal for their reduction. But with these blessings—blessings in abundance—there may be a limit to our industrial advance.

Under normal conditions two causes can arrest our progress: viz: scarcity of labor and a loss of our agricultural exports. With the immigration we have had in such abundant measure, together with our increase in native population, it would seem impossible that labor should ever be scarce. In quantity, perhaps this may be true; but for the manufacturers some skill is required, and intelligence above the ordinary is needed. Then, for each additional five or six families whose heads are engaged in the shops or factories, one farmer must start his plough for their support, or else our exports must be diminished by a corresponding amount. This farmer must take up new lands, less productive than those now farmed, or else a subdivision of lands now under cultivation must take place. Both these steps have been taken. The size of farms has been decreased from 199 acres in 1860 to 137 in 1890, and the number of farms has increased a great many fold in this period.

While the total acreage under cultivation has increased rapidly, it has not been greatly in excess of our increase in population; so that we cannot expect to continue to add to our exports of foods unless we start upon a scheme of more intense cultivation. It is therefore, inevitable that sooner or later we shall cease to control the food-supplies of the world; and then, as other countries become independent upon them, or at least shall no longer be in a position to dictate terms of exchange. It is now, while we are strong in agricultural and industrial exports, that we can make the best terms with the other members in the family of nations; and it is now that we can accept the principle of economical division of labor, with its corollary that looks toward free trade, and with its ethical injunction to live and help live.—"The Commercial Relations of the United States and Germany," by James H. Gore in the December Forum.

## DEFENDING THE NATION.

Catarrh is our country's enemy. Lagrippe, lung troubles and other diseases of the mucous membrane hold of our people and fatal results follow with alarming frequency. All of these troubles are catarrhs, and cannot exist where the membranes are clean and healthy.

Mrs. Lou Davis, Fayetteville, Tenn., tells in her letter how Dr. Hartman's great catarrh remedy, Pe-ru-na, cured her of a grippie and serious lung complication. She says:

"I was afflicted with a disease commonly known as lagrippe two years ago; the doctors said I had consumption. I got one bottle of Pe-ru-na and the second night my cough stopped. I took several bottles, and I will say that I believe I would be a dead woman now if it had not been for Pe-ru-na."

Mary M. Pruitt, Palpa, Mo., says: "Pe-ru-na Medicine Co., Columbus, O."

"I had a grippie for three successive years; it seemed to get a tighter hold on me each year. It seemed I was in the jaws of death. What had helped me before would not do me any good. I saw an advertisement of Pe-ru-na. I procured two bottles and it cured me. I have not felt any symptom since. You may use this in any way you please."

THE Boer of South Africa are boxing and going John Bull sorely and even humiliating the strong arm of Her Majesty.

THE man who is so narrow in his conception that he sees no fault of his own is a nonentity sealed up in an impregnable shell of self-conceit.

"THEY enslave their children's children; Who make compromise with sin." The above is as true now as when it occurred to Lowell sixty years ago. Every freeman should consider that great truth and raise his voice in a mighty "down with Goebel and his hirelings."

THAT address purports to give moral strength to the infamous content to come. Every charge contained in that address is a malicious makeshift, known to be such by every intelligent informed man who signed it. It is the wall of disappointment. So to speak, it is the "cat's paw" made by Goebel of those who constructed it, to take from fire a "political chestnut."

JO AND BILL and the rest of their clan said before the election that the Republicans could not count them out, that they could not steal elections now. They said it because they had complete control of the election machinery in every precinct in the State. And yet, overwhelmed by the fury of the popular will, they charge that the Republicans did steal the election. To admit so much is to acknowledge their inability to cope with Republican and Republican intelligence and sagacity.

KENTUCKY Democracy is like the Spanish government? Dominated by a band of would-be leaders whose highest conception of their party's interest and duty to same is measured by their own ideas of personal aggrandizement. Within the last quarter of a century a sufficiency of money has been expended on the army and navy of Spain to make her a formidable foe, but the same, through duplicity of her leaders found service in private enterprise. Spain continues to disintegrate. Enough eulogy and praise of Kentucky Democracy have been thrown to the four winds, if in print, would weigh an elephant to earth and yet they have robbed the old party of pride, stability and honor too. She too is disintegrating.

THE Mountain Echo, answering Coulter's charge of tissue ballots speaks clearly and in unmistakable terms saying: "When Coulter says that the ballots used in Laurel, Jackson, Owsley, Leslie, Harlan, Casey, Russell or Metcalf counties were tissue ballots he lies, and when he swears that these counties or any or any of them used tissue ballots or paper thinner than the statutes contemplate, he swears a lie. The ballots for those counties were printed at the Mountain Echo job office and we know whereof we speak." We admire the manly firmness and pluck of the Echo in the defense of what it knows to be true. It appears to be had "taste to call an elephant 'a big long-nosed, flippel-eard, club-footed mule.' It is best to denigrate men and things as they are.

THE duplicity, fraud and corruption of Goebellism is now crystallized in the form of an address from the "Bosses" to the Democracy of Kentucky. This address appears over the names of the members of the Democratic organization. This address was doubtless conceived in the mind of Wm. Goebel. To stimulate his weak and weary followers, he finds it necessary to put a "new song into their mouths," as the General on the field of battle commands the several divisions of his army through his trusted lieutenants; likewise Bill Goebel now standing behind the curtain commands his faithful lieutenants and Colonels to unite in one strong plea of "Republican fraud and intimidation." True to that command every one has sacrificed himself.

THE chief cause which makes the Goebellists desperate is knowledge of the fact that their cause has been one of the most villainous and corrupt known to modern politics; that an outraged people will endure such conspirators no more; that their bridges are burned behind them and the future for them made barren unless they can steal the government from the Republicans and patch up the weak places in that infamy of infamies the Goebel Election Law. It is a fact known to them that with the passing of their clan, party perfidy and dishonor, the Republican party will rule Kentucky for many years. Hence their desperation. Men like Goebel and Blackburn have nothing to lose (all being lost) and any gain which they may make through fraud or otherwise will find them eagerly and anxiously awaiting.

NEVER yet has fate decreed that intelligent, ambitious youth should bow to poverty and ignorance.

THE Goebellite lieutenants and mercenaries driven to desperation in defeat now charge that the Republicans and honest Democrats who supported Taylor and Brown entered the sanctum sanctorum over which they alone stood guard and actually did purposely, intentionally beyond doubt steal the election and the fruits thereof from him who had promised him so much. It is uncompromisingly low and base in a man beaten at his own game to cry fraud, but such Goebel and his hirelings do.

ONE of the most remarkable discoveries of Republican fraud perpetrated in the last election yet given to the public was handed down Wednesday by the Herald. Notwithstanding that the majority of the Board and the County Clerk were Democrats, yet the Herald says the Republicans actually furnished the election officers with creosote ink for these of the voters. This is thoroughly consistent with the Herald's manner of telling things, however. Whoever may chance to see that article will know where to class it. If the people of Grayson could see such an article they would wonder why the people about Hartford do not keep cattle.

WHAT Goebel can do with the Kentucky Legislature remains yet to be seen. That he will do anything within the realms of possibilities none question that he will never be Governor of Kentucky is not to be doubted. Kentucky manhood has spoken and its mandate must be respected, the howling mob of office-seekers to the contrary notwithstanding. It was thought to be impossible for Goebel to get the nomination of the Music Hall Convention having only 167 instructed votes out of over 1,000. Yet he hoodwinked and hoodwinked Capt. Stone and organized the convention throwing out enough honest delegates and seating in their stead mercenaries of his type. This done, he carried away the nomination. He failed to have the election where he had the convention, failing in calculation. But the world is without a parallel to him in promise-making. If promise will influence legislatures then Goebel is sure to carry the Legislature at his bidding. But promises counting for naught, his doom has long since been sealed by the hand of fate.

THE people of Hartford and the county are now brought face to face with the question: "Shall we patronize a foreign corporation or shall we sustain a home enterprise?" Shall the Cumberland Telephone Co. drive out the Nickle Plate Telephone Co. owned by home capital? It should be remembered that the Cumberland Co. was asked to build lines through this section and to put an exchange up in Hartford. As satisfactory answer never came. Then when it appeared that we would have no exchange. Messrs. Mattingly and Ford undertook the task to give us an exchange and connection with all important towns of the county and with Owensboro. In this they have succeeded. In addition to this, they have given the people a ten-cent rate, the Cumberland rate having been 25 cents. It is possible that an exchange rate of 50 cents per month will be given by the Cumberland Co. in order to run out our home exchange. It should be rejected. Such an offer would only stand until the home company was run out then the rate would go up again. Let's stand by home. Home first, last and all the time.

WHAT will the Brown element do? is a question often asked nowadays. To answer the question properly it should be known of what that element is composed. The observer readily sees in it. Men of firmness, semi-firmness and no firmness at all. Those without firmness were whipped into line by the party lash of the demagogue and Goebellized. Under the head of semi-firmness should be classed all those who passively held the interest of the State above party interest, but when threatened with political ostracism or boycott in business took as an excuse to return or "hang on," what some individual or paper said of Goebel or the ticket. In such no confidence can repose. Their course depends upon the way the wind blows strongest. But the firm who stood faithfully with Taylor and Brown, supporting free government and the best interest of the State may always be relied upon where the interest of the bosses conflict with the interest of the State. Many of that class are now in full fellowship in the Republican party. And of such men of action and conviction the Republican party is composed. For any man to say that the Brown Democrats were not honest and sincere in his conviction is to make of himself a fool, the subject of ridicule. They were strong upright, honorable, honest, star-wart business men of great personal worth and high character.

## VICTORIES OF THE STUDY.

The Nineteenth century has been the most eventful in all the tide of time. Such strides as have been made in the advancement of civilization were never known to any other century. The closing years of the century, have seen nations living in brotherly love through periods hitherto unknown. The mighty scepter of power has passed from the canon's mouth to the sphere of intellectual splendor. The sword finds a more powerful combatant in the study. The scene has changed. The combat of mind with mind now reigns. The Wellingtons and Napoleons have become Tennysons and Hugo's. The battlefield (the old school of nation) gives way to the college and university. The scenes of many a bloody battle of the earlier part of the century are much to be regretted, but pass as marvels of the age. The attention of the present now centers about the study. And the hero of the hour is he who is able to deliver to humanity the greatest amount of good. He who conceived the plan of steam appliances to railway transportation bequeathed to humanity more lasting good than Alexander the Great with his countless hosts of soldiers. S. F. B. Morris through years of unceasing toil succeeded in inventing telegraphy, thereby bequeathing to mankind a rich heritage. Thomas Gordon Bell less than a century ago surprised the world with the telephone, by means of which together with telegraphy nations may live as neighbors and friends thousands of miles distanced may instantaneously converse with each other.

One man Ericsson from his study in a secret chamber planned the Monitor and in planning it that day revolutionized modern naval warfare. Edison, by the magic hand of genius struck the key note to electricity and gave the world wonders hitherto unknown. These are but few of the achievements of the study. Its victories follow year by year in rapid succession. This vast field of study is open to every energetic youth who wills and determines. No heritage save vim and vigor of life admits into its realms. No reward comes except as the fruit of labor.

## About the Contest.

MOUNTAIN ECHO.  
Among other counties that Gus Coulter, in his notice of contest, accuses of having used tissue ballots in the late November election, is Laurel. Now, all that we have to say in regard to this matter is that when he says that the ballots used in Laurel, Jackson, Owsley, Leslie, Harlan, Casey, Russell or Metcalf counties, were tissue ballots he lies, and when he swears that these counties, or any of them, used tissue ballots, or paper thinner than the statutes contemplate he swears a lie. The ballots for these counties were printed at the Mountain Echo job office, and we know whereof we speak. For our part we are willing to let the contest rest upon the kind of paper or the manner in which the ballots for these counties were printed. What say you, Mr. Coulter? Then it follows, that if his notice in this particular is false, it is false throughout. More than this, we are willing to leave the legality of the ballots in this county to the board of election commissioners in this county, a majority of whom voted for Mr. Coulter.

EARLINGTON BEE.  
Notwithstanding that "letter of protest" and the "affidavits" that were to follow Hopkins county is not even charged with "tissue ballots" in the blank contest notices that have been filed by the defeated Goebellite candidates.

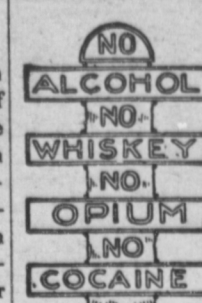

GOLDEN ERA.  
When the legislature meets, the people should have public meetings and denounce any and all efforts of the Goebellites to steal the state offices from the Republicans, who have won them honestly and fairly.

PADUCAH SUN.  
Perfidy, disregard for oaths, political dishonesty and partisan hatred are Goebell's hope for success before the legislature for ability to out Taylor from the Governor's chair. Will he find enough legislators of his character to give him the support he wants? The Sun does not believe this is possible.

HAWESVILLE PLAINDEALER.  
Notices of contest have been served on Gov. Taylor and Lieut. Gov. Marshall by Goebel. This is like serving a notice on a fellow to work a road, that don't have his washing done in the precinct. This will be followed by an open address to the people in a few days who will wish when they read it, that it had been a shut one.

GLOBE DEMOCRAT.  
Goebel still pursues his idea that elections in Kentucky are to be decided by some crooked political scheme instead of by votes. Such a creature in the Governor's mansion would cause the State beyond all precedent.

BURKESVILLE HERALD.  
Among the charges of fraud filed by Coulter in his contest against Auditor Sweeney, we note that of tissue ballots in Cumberland county. This charge simply takes the cake, and we can see no other grounds for it than that all, or very near all, of the voters of this county are Republicans and the job of printing the ballots was not given the Courier-Journal Co.

Golden Medical Discovery  
If a medal were awarded for the most perfect temperance medicine prepared for family use it would undoubtedly be given to Doctor Pierce's Golden Medical Discovery. This medicine is entirely non-alcoholic and non-narcotic, produces no action on the stomach, and instead of the simulated strength which results from the use of "whiskey medicines," or nerve numbing narcotics. The many and remarkable cures resulting from the use of "Golden Medical Discovery" are the soundness of Dr. Pierce's theory that in these days of haste and hurry the stomach is the common breeding place of disease. These cures also prove the soundness of Dr. Pierce's theory that "diseases which originate in the stomach must be cured through the stomach." The "Discovery" is a medicine for the stomach and other organs of digestion and nutrition. When the stomach is healthy the blood made in the stomach is healthy, and sufficient in quantity to nourish the nerves and strengthen the system to resist or throw off disease. Nature develops life, sustains life and preserves life by nourishment. Vital failure comes when the body is starved either from lack of food or the inability of the digestive and nutritive organs to extract the nourishment from the food taken into the stomach. "Golden Medical Discovery" takes the obstacles from Nature's way so that she can sustain life by her own methods. Dr. Pierce's Pleasant Pellets assist the action of "Golden Medical Discovery."

GLOBE DEMOCRAT.  
Goebel's contest before the Legislature will end just as it did before the State Election Board. The candidate who had the most votes has been inaugurated, and the Legislature will not disturb this arrangement. Notwithstanding that Democratic majority in the Legislature, Goebel is politically dead. All Kentucky Democrats are not dishonest. Fortunately for themselves and the State, a very large proportion of them have some regard for the will of the people.

HARRODSBURG DEMOCRAT.  
The people of Frankfort were much startled and amazed last week to observe that all the horses on the streets were idling in hearty guffaws of laughter. A hurried investigation disclosed the fact that the Hon. Bill Goebel at that moment, with hand on breast and eye cast heavenward, was declaring to the party leaders that with great personal reluctance he had decided to contest the election of Gov. Taylor—not that he wanted the office—ah, no—but that he felt it his duty to obey the commands of his party, to ferret out and punish the election frauds perpetrated by the Republicans against the people, etc., etc.

SMALLHOUSE, KY.  
Mr. John Drake has just completed a nice little residence and moved to same last Wednesday.

Mr. W. T. Howell has moved to his farm in McLean county. We regret to give Mr. Howell and family up as they were among our best citizens.

Mrs. John Igleheart is quite ill of nervous prostration.

We were glad to see Mrs. Lon Igleheart at church Sunday after an illness of several days.

Master Roy Bennett is quite ill.

We were sorry to note the absence of our pastor, Rev. Edgar Maddox Sunday. Rev. G. H. Lawrence preached a good sermon in his stead to a large congregation.

The visitors of this community for the holidays are Mr. Herman Barnd and Mr. Orville Bennett who are attending Georgetown college are visiting their parents. Mrs. Mildred E. Culloway is also visiting her parents and other relatives here and at Cevalva. She is attending school at Cevalva.

A protracted meeting has just closed at Equality, conducted by Revs. Joshua Miller and E. W. Shugart. There were two conversions and several deeply convicted.

Mr. Alva Calloway visited his sisters, Mrs. Robert Bennett and Mrs. Fielden Bennett, of Beda, and also his sister, Mrs. Tommie Bennett, Prentice this week.

Mrs. Owen Hunter and sister, Miss Lela Hunter visited their aunt, Mrs. P. L. Wood, Cevalva Xmas night and was at the Christmas tree.

Mrs. Minnie Miller, wife of Dr. Ellis Miller, Sulphur Springs, is visiting her parents and other relatives here.

Mr. Ed Ball is at home after an absence of six weeks on a raft enroute to Evansville.

Miss Burrs, Rochester, is visiting her aunt, Mrs. J. K. Condit. She will remain three weeks.

Mr. and Mrs. P. L. Wood, Cevalva, visited Mrs. Wood's sister, Miss Maggie Hunt.

As a cure for rheumatism Chamberlain's Pain Balm is gaining a wide reputation. D. B. Johnson of Richmond, Ind., has been troubled with that ailment since 1862. In speaking of it he says: "I never found anything that would relieve me until I used Chamberlain's Pain Balm. I act like magic with me. My foot was swollen and paining me very much, but one application of Chamberlain's Pain Balm relieved me. For sale by Z. Wayne Griffin & Bro."

The members of West Providence Baptist church surprised the pastor, Rev. Jones, of Drakobro, with a Christmas present consisting of a wagon load or two of everything that is good to eat. This unique surprise is a happy manifestation of the church's love and confidence in their pastor. "Freely give freely ye receive."

FUNERAL OF MRS. WEDDING.  
The funeral of Mrs. Cora V. Wedding, wife of Judge R. R. Wedding and a daughter of W. W. Ezell, a prominent merchant of Bowling Green, took place from the residence, 654 Third street, yesterday morning at 10 o'clock. Dr. T. T. Eaton conducted the services. Besides her husband, Mrs. Wedding leaves five children.

The burial was in Cave Hill cemetery. — Tuesday's Courier Journal.

The many friends of the deceased will learn with sadness the news of her death. Mrs. Wedding lived in Hartford for several years until about one year ago when she removed with her family to Louisville where they have since made their home. Mrs. Wedding leaves a family of four boys and one little girl together with their father and many friends to mourn her loss.

Mr. John King met with a serious accident Saturday while enjoying Christmas with the boys. He was unfortunate in holding a large fire-cracker too long. Its unexpected explosion shattered his fingers badly, causing a very painful wound.

"I am Hale and Hearty Now,"  
writes C. B. Hill, of Marshall, Mich. "a living proof of the efficacy of Dr. Miles' Heart Cure. I have suffered 20 years from heart trouble, and became so bad I could not lie down to sleep. Physicians failed to help me, and I was advised to try Dr. Miles' Heart Cure, which benefited me from the first. I continued using it and now am in perfect health."

### Rowe Indicted.

The grand jury at Owensboro last week after indicting Commonwealth's Attorney J. Edwin Rowe for drunkenness and neglect of duty sent up a demand for his impeachment before the Legislature. The following is in substance their charge:  
"In the discharge of our duties we have been materially assisted by all the officers of the law with whom we have had official connection, except the Commonwealth's Attorney, J. Edwin Rowe, whom we have indicted for drunkenness and failure to perform the duties imposed upon him during the present term of this court. His misconduct and drunkenness have become so frequent, so flagrant and so notorious as to bring your honorable court into disrepute, and to reflect great discredit upon the administration of the criminal laws within our judicial district.  
"It has been demonstrated by the fact that he has escaped punishment for his official and personal misconduct in the several indictments charging these offenses in which he has succeeded in evading trial, that there is now existing a necessity for calling the attention of the General Assembly of Kentucky, which is soon to convene, to the constant official misconduct of this officer, and to urge the several Representatives in that body from this judicial district to take such steps as will bring him before that body to answer same, and to be dealt according to law.

### G. A. R. Meeting.

Preston Morton Post No. 4 will install their officers on Saturday, January 6th, 1900. Every comrade is expected to be present. The old comrades in town will prepare a lunch on this occasion for the visitors to honor the old time "possum, baked beans and bacon, cracklin bread, hot coffee, etc."

#### The Loss of Gold is Great:

The loss of health is more. Health is lost by neglecting to keep the blood pure, but it is regained by purifying, enriching and vitalizing the blood with the great health restorer, Hood's Sarsaparilla. Thousands who thought health had been permanently lost have been made perfectly well by taking this great medicine. Your experience may be the same.

Hood's Pills are gentle, yet always effective.

## That Cough Hangs On

You have used all sorts of cough remedies but it does not yield; it is too deep seated. It may wear itself out in time, but it is more liable to produce la grippe, pneumonia or a serious throat affection. You need something that will give you strength and build up the body.

### SCOTT'S EMULSION

will do this when everything else fails. There is no doubt about it. It nourishes, strengthens, builds up and makes the body strong and healthy, not only to throw off this hard cough, but to fortify the system against further attacks. If you are run down or emaciated you should certainly take this nourishing food medicine.

SCOTT & BOWNE, Chemists, New York.

#### Minutes

Of the Ohio County Teachers' Association held at Narrows, December 16th, 1899:

The Ohio County Teachers' Association met at Narrows, Ky., Dec. 16, 1899.

The house was called to order by Supt. Rogers after which devotional exercises were conducted by Prof. N. T. Groves.

Supt. Rogers then stated the object of the meeting and that the election of a secretary was the next thing in order. U. C. Barnett was chosen to that position.

The subject of primary grades in reading being the first on the program was opened by N. B. White. He said that primary reading is very essential because that branch is the foundation for further advancement in education. He thinks the primary grades should receive more attention than the more advanced grades on that subject. The discussion of the subject was concluded by short talks by Prof. Groves and others.

The association was then favored with a recitation, "The Miser" by Miss Irene Whittinghill, after which the body adjourned for dinner.

The subject of advanced Reading being the first thing on the program for the afternoon it was discussed by Dr. Z. H. Shultz. He said that Reading and Literature are intimately connected. That he has his classes to discuss the lives of the authors of the selections read, their chief productions &c. Morton Holbrook followed with a few remarks. He said that most of our knowledge of reading is obtained in the public schools; that that subject is an object of neglect in the more advanced schools of our country. He insisted that the teacher should thoroughly acquaint himself with the selection to be recited that he may be better prepared to impart it. J. C. Hoehmer followed by saying that he requires the pupils to study the lives of the authors of the selections to be read. Prof. Groves insisted that we should study the figures of speech in our reading lessons. Dr. D. H. Godsey said that he encouraged the reading habit. Short talks were then offered by Carl Soper, J. A. Sanback and O. V. Wilson. The discussion of the subject was closed by Prof. Shultz who insisted on inculcating the reading habit by encouraging supplementary work.

J. C. Hoehmer opened the discussion of the subject of Civics. He teaches it in primary grades. Prof. J. B. Taylor said that a knowledge of Civics was essential to a good citizenship. Miss Dona Westerfield teaches the subject by beginning at the government of the Magisterial District and continuing to the National Government. She was followed by Ellis Mitchell and W. D. Park the latter of whom suggested that the teacher should encourage the observance of self government. Prof. Groves defined Civil Government as being opposite to Military Government. After numerous remarks by different teachers the discussion of the subject was closed.

Mr. Arthur P. Miles then entertained the association by a recitation entitled "Socrates Snooks". A review of Evangelism was then read by U. C. Barnett. Compulsory Education, it is desirable was discussed by Prof. Groves. He said that there must be some other reason than compulsion to obtain attendance at school; that the pupils must be influenced to attend by a

latter motive. J. H. Duff thought that possibly, if the pupils could be induced to attend school a day or two they would become interested and would remain in school without being forced to do so by the strong arm of the law. Carl Soper favored Compulsory attendance because the pupil should get the benefit of the money spent for his education. Dr. D. H. Godsey insisted that the teachers should go out into the district and do a little missionary work by urging the parents to send their children regularly. Prof. Shultz closed the discussion of the subject. He favored cleanliness of person as an essential to the proper education of the child whether it be brought about by compulsion or by the voluntary acts of the child.

Miss Myrtle Shreve then recited "The Murderer" which was well received by the audience.

The report of the committee appointed at the last meeting of the association to draft suitable resolutions relative to the death of our friend and former co-laborer J. L. Elmore was received and the committee discharged.

Prof. Shultz then urged the attendance of our teachers at the State Teachers Association at Louisville Christmas week after which the body adjourned to meet at Hartford, Jan. 20th, 1900. F. O. ROGERS, Ch'm'n. U. C. BARNETT, Sec'y.

#### Dodson-Bennett.

Mr. Gilbert Dodson and Miss Bernice Bennett were united in marriage at the C. P. Church, Beda, Ky., Sunday, December 24th, Rev. G. J. Beau officiating. A large number of friends of the contrasting party were present to witness the happy event to extend good wishes for useful and happy life.

Mr. J. W. Miles, of Trisler, died at his home Monday of pneumonia fever. On the tenth day of his illness the physical man succumbed to the relentless pangs of that disease and his soul winged its way to the land of the blessed. Mr. Miles was fifty eight years of age and one of the county's best and most reliable men. He leaves a wife: three sons and one daughter. In his death his wife sustains the loss of a faithful and devoted husband, their children a kind and indulgent father, the community a liberal neighbor and friend.

## In Pain?

In the Back? Then probably the kidneys. In the Chest? Then probably the lungs. In the Joints? Then probably rheumatism.

No matter where it is, nor what kind; you need have it no longer. It may be an hour, a day, or a year old; it must yield to

## Dr. Ayer's Cherry Pectoral Plaster

Immediately after applying it you feel its soothing, warming, strengthening power. It quiets congestion; draws out inflammation. It is a new plaster.

A new combination of new remedies. Made after new methods. Entirely unlike any other plaster. The Triumph of Modern Medical Science. The Perfection of years of Patient Toil. Placed over the chest it is a powerful aid to Ayer's Cherry Pectoral in the treatment of all throat and lung affections. Placed over the stomach, it stops nausea and vomiting; over the bowels, it controls cramps and colic. Placed over the small of the back, it removes all congestion from the kidneys and greatly strengthens weakness. For sale by all Druggists. J. C. Ayer & Co., Lowell, Mass.

Teachers, remember that the third Saturday in January is the date for our next association. Begin now to prepare and fail not to come. Every meeting yet held has been very enjoyable, but the next is expected to be the best yet held. The life of the association is made up of the interest of the teacher. Answer by your presence the question, are you interested?

#### 72 Versus 67.

Yesterday after a long journey on the happy and placid sea of ringing bressness, when the decree of fate had almost been signed by the angel of disappointment, hope and rejuvenescence came to the heart of Miss L. Smith and she gave her heart and hand to Mr. Thomas J. Keown in marriage. Mr. Keown is a farmer of fair circumstances, living near Horse Branch and has been married once previous to yesterday. His age is 67 and his bride's age is 72. The groom boarded the I. C. train at Horse Branch Wednesday and was safely delivered at Beaver Dam en route to Hartford. The weather's being very cold and disagreeable, the aged groom declined transportation from Beaver Dam on Field & Son's excellent omnibus, but found the way to the county's capitol through a process of a five mile's walk.

The county clerk being a very happy and genial gentleman, presented the aged groom his "papers" gratis, stating that a man engaged in such a noble calling at such an advanced age should not have to pay for license, for this kind act of benevolence, the clerk was abundantly thanked by the groom to be and now the two hearts beat as one.

Thus encouragement comes to those who have grown despondent in the hope of the future. So long as there is life there should be hope.

Mr. A. W. Bennett, Smallhouse, who is attending school at Georgetown, Ky., came home to visit his parents during the holidays. He was in town yesterday and made the Republican a visit. Mr. Herman Barnard, who is also attending school with Mr. Bennett is with his parents during the holidays.

The Masonic Lodge No. 675 elected the following officers at a meeting held for that purpose December 27th: Master, R. Holbrook; Sr. Warden, Henry Weinsheimer; Jr. Warden, Dr. E. W. Ford; Secretary, J. T. Moore; Treasurer, J. C. Riley; Chaplin, G. J. Bean; Sr. Deacon, E. Crabtree; Jr. Deacon, C. R. Campbell; Tyler, James Sullenger; Steward, Dr. E. B. Pendleton, J. H. Patton.

#### Thousands Have Kidney Trouble and Don't Know It.

How To Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours. A sediment or settling indicates an unhealthy condition of the urinary passages. The kidneys: If it stains your linen it is evidence of kidney trouble. Frequent desire to pass it or pain in the back is also a convincing proof that the kidneys and bladder are out of order.

What To Do. There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

A young man, Allen by name, was accidentally shot in the foot, at Narrows, Saturday, sustaining a painful wound. The ball still remains in the foot. The accident occurred while a number of boys were carelessly handling an old pistol.

Fiscal Court will convene Monday. Quite a large crowd will be in town on the first day of the first month of the last year of the 19th century.

"Take time by the forelock." If your blood is out of order, begin taking Hood's Sarsaparilla at once and prevent serious illness.

Mr. W. W. Austin an aged citizen living near town died of pneumonia Tuesday. Mr. Austin was one of the oldest citizens of the community. Age and his attending physical weakness made him an easy prey of the dread disease. Within the past year the wife of the deceased passed from among the living. His remains were laid to rest in Oakwood cemetery.
